

# SMALL BUSINESS RESOURCES FOR COVID-19

## How Businesses, Organizations, and Government Agencies are Stepping Up to Help

### FINANCIAL HELP

1

Many government agencies and banks are offering loan and credit options for small businesses to cover costs, including payroll, bills, and more to small businesses affected by the COVID-19 outbreak.

### WORKFORCE

2

There is information available to navigate Worker's Compensation claims related to COVID-19, as well as opportunities for unemployment benefits to minimize potential layoffs.

### TOOLS TO ADAPT

3

Some businesses are offering discounted or free tools for businesses adapting to employees working remotely, crisis communications, and other unusual obstacles small businesses are facing.

### RESPONSE GUIDES

4

Many government agencies and other organizations have developed guides to help small businesses respond to effectively keep employees, the community, and their business safe and healthy.

### COMMUNITY ASSISTANCE

5

There are many initiatives to serve the community during this difficult time, including financial assistance, meal pick-ups, and care-packages.
